NOTE.—The great difference in value of Exports for 1873 as compared with 1871 and 1872, arises from the average value of coffee during 1873 in the local market previous to shipment being taken at £4 10s. per cwt. for plantation and £4 per cwt. for native, instead of £2 14s. and £2 as heretofore.

The money figures from 1874 have been converted from rupees to pounds sterling at 1s. 10½d. to the rupee.—Prior to 1874 at 2s. to the rupee.

16.—*Agricultural Statistics.*

The Agricultural Returns for 1877 have on examination been found so defective that they failed to convey any correct impression of the state of Agricultural progress in the country generally.

Steps have been taken to ensure greater accuracy in future returns; meanwhile, it has been decided not to delay the publication of this volume until all the returns were amended, but to omit the untrustworthy statistics.

On Investments in India Government Security at 5½ per cent. per annum on stock.
On Local Investments—Fixed deposits, 5 per cent.; Current deposits at the usual rate.

Customs.

These duties are collected under and agreeably to the directions of the Ordinances No. 17 of 1869 and No. 14 of 1871, by which all former laws relating to Customs are repealed, consolidated, and amended; and Proclamation of 10th November, 1877; and under Ordinance No. 22 of 1877, by which a royalty of 25 cents is levied on every cwt. of plumbago exported beyond seas. Warehouse Rent charged upon goods placed in the Queen's Warehouses is levied by Government Notices dated 20th October, 1876, and 6th July, 1877, under authority of the 13th clause of the Ordinance No. 17 of 1869.

Port and Harbour Dues.

Port Dues are levied under the Ordinances No. 17 of 18 9 and No. 14 of 1871. The rates are eight cents per ton inwards, and eight cents per ton outwards on loaded Vessels.—Under this head are also brought to account receipts for the hire of Government Boats and Moorings, and half pilotage fees recovered under the Ordinance No. 6 of 1865.

Land Sales.

Under this head are included the Receipts derived from the Sale of Crown Lands and Cinnamon Gardens, under the Rules laid down in the Minutes of the Governor of the 14th January, 1857, and 14th May, 1875, and the half-improved value of land under the provisions of the Ordinance No. 12 of 1840, also the proceeds of sale of Paddy Lands in the Irrigation Districts, under the Minutes of 27th February, 1857, and 21st May, 1868, and Grants of land under the Minute of 8th August, 1844.

Land Revenue.

Rent or Tax on Paddy.

The Receipts classed under this head are derived from the Rent or Tax of one-half, one-third, one-fourth, one-fifth, one-eighth, one-tenth, one-fourteenth, or one-twentieth of the produce, according to the tenure on which the lands are held.

The Tax is levied on the authority of immemorial usage, and is particularly recognized by the Proclamations of the 3rd September, 1801, the 22nd April, 1803, and the 21st November, 1818, and the Ordinances No. 14 of 1840 and No. 29 of 1865.

In the Central Province this Tax was, till 1826, levied by an Annual Assessment of the Crop of each harvest, and was chiefly collected in kind. In the Districts adjacent to the Town of Kandy, the Assessment was then commuted with the consent of the proprietors, for the annual payment of a given quantity of Grain, which arrangement continued in force till the end of 1830, when that system was further extended by giving the proprietors the option of paying the Assessment, either at a fixed rate of money, or in kind, and even of redeeming the Tax in perpetuity by payment of the Assessment for 20 years. In 1832, the first settlement having expired, a renewal of the Commutation Assessment was entered into throughout the former commuted Districts.

The Commutation System is also in full operation in some Districts of the Western Province. In the North-Central, North-Western, and Southern Provinces the Renting system alone is adopted. In the Northern Province the average of the Renting and Commuting systems is nearly equal. In the Eastern Province both systems prevail.

Rent or Tax on Fine Grain.

Recognized by the Proclamations of the 3rd September, 1801, and the 22nd April, 1803, (which impose generally a Tax of one-tenth on the produce of all high lands, viz., of lands not adapted to the cultivation of Paddy,) and recognised by the Ordinances Nos. 14 of 1840 and 29 of 1865. In the Western Province this tax is levied in the old Kandyan Divisions only according to the tenure on which lands are held, or according to the ancient usages and customs of the country. The proceeds sale of illicit cultivation of fine grain on Crown land are also brought to account under this head.

In the Northern Province the rate of Tax is one-fifth for jungle cultivation, and one-tenth for all the others.

In the Kandyan Territories, Fine grain is exempted from Taxation under the Proclamation of 21st November, 1818.

Rent of Gardens.

This Revenue is derived from the produce of Government Gardens either rented or collected in aumani, (that is in kind.) In the Central Province the Rents derived from small Crown Lands, and on reserved Crown Lands on sides of Public Roads which are permitted to be cultivated, are also brought to account under this head.

Land Rents Redeemed, or improperly termed "Tythes Redeemed."

A measure adopted in 1813, by Government, under the conviction that cultivators of Crown Paddy lands would cultivate them more carefully and with greater advantage to the revenue if subjected to payment of one-tenth only, instead of the one-half or one-fourth. The redemption is effected by the owner paying the estimated value of the Government share exceeding one-tenth for eight or ten years at one payment. The cases of redemption of this nature are however few in number, and the permission to redeem the Rent altogether, which was at one time granted on the application of the owner, has been suspended.

Rent of Lands.

The Receipts under this head are collected from the rental of Government Lands, leased at will, and a fixed rate per acre on Government Lands encroached upon by private parties.

Royalty on Cabook Stones, &c.

A payment of Rs. 3·75 is levied on every 1,000 Cabook Stones cut from the Government pits in the Districts of Colombo and Negombo; of 6 cents per 100 cubic feet of sandstone quarried between Hendala and Pamunugama; and three cents on every cartload of white sand removed from the Maradána Cinnamon Gardens.

RENTS, EXCLUSIVE OF LANDS.

This head embraces the amount for which the Government farms out the privilege of collecting the Tolls leviable at the different Roads, Bridges, Ferries, and Canals, and the Lock at St. Sebastian, under the Ordinances Nos. 14 of 1867, 4 of 1868, 18 of 1869, and 2 of 1871.

It also includes the Rental paid by public Officers for the occupancy of official residences, and also Rent of Buildings used as Markets, Coal Sheds, Ice Stores, &c.

LICENSES.

Arrack, Rum, and Toddy.

The exclusive privilege of retailing spirits distilled from the Palm tree and Arrack, Rum, and Toddy, generally farmed in the several Provinces,—regulated by the Ordinance No. 10 of 1844.

Duty on Arrack and Rum Stills.

Under this head are brought to account sums received for Licenses issued to Distillers of, and wholesale Dealers in, Arrack and Rum, under the Ordinance No. 10 of 1844. The License is granted by the Government Agents on the payment of the sum of 30 rupees, and is in force from the date of such grant until the end of the year.

*Licenses to retail Beer or Porter and Intoxicating Liquors.**

These Licenses are issued for the retail of Beer or Porter and Intoxicating Liquors with the exception of Arrack and Rum, under the Ordinance No. 23 of 1877. The License is granted by the Government Agents on the payment of the sum of Rs. 10 to sell Beer or Porter only, Rs. 30 to sell intoxicating liquor generally not to be consumed on the premises, Rs. 100 to sell intoxicating liquor generally to be consumed on the premises, and Rs. 250 to keep an Hotel, and is in force from the date of such grant until the end of the year. The collection under this head within Towns has been transferred to the Municipalities created under the Ordinance No. 17 of 1865.

Chanks.

Under this head are brought to account sums received in consideration of permission granted to individuals to dig for dead Chanks in Crown lands, being equivalent to one-fifth of the value of the shells procured. This branch of Revenue, which is peculiar to the Northern Province, is protected by the Ordinance No. 4 of 1842.

Chank Fishery.

Under this head are brought to account sums received for permission granted for the employment of Boats and Divers in the Chank Fishery. The Ordinance No. 5 of 1842 provides that no Fishery shall take place but by permission of Government, and the Government has made Rules for the granting of such permission on payment of these fees.

The head "Licenses" also embraces receipts from the following Taxes, &c.:—

* Rs. 10 for a license to possess Opium beyond 2 lbs. in weight, and Rs. 30 for a license for selling Opium and Bang, in certain towns proclaimed under the Ordinance No. 10 of 1867.

Royalty on Elephants removed from the Island, under Ordinance No. 13 of 1869, and Proclamation dated 7th July, 1873.

				Rs.	Cts.
On each Elephant	—	—	—	200	0

* Under the provisions of the Ordinance No. 17 of 1865 the collections within Municipal Towns have been transferred to the Municipalities.

Stamps.

Amount of Stamps for certificates of admission of persons to act as Advocates and Proctors, levied under Ordinance No. 12 of 1848.*

Proceeds of Stamps in Judicial Process and for general purposes, in the Kachchéries, District Courts, and Courts of Requests, and by licensed Vendors throughout the Island, under the provisions of the Ordinance No. 23 of 1871.

Proceeds of Postage Stamps sold are also accounted for under this head, under the Ordinances Nos. 7 of 1865 and 10 of 1869.

Composition for Stamp Duty on Bank Notes in circulation.—Recognized by Ordinance No. 2 of 1861.

Stamp duties levied under the Land Registration Ordinances No. 8 of 1863 and No. 3 of 1865, and fees for registering Grants of Crown Lands are also brought to credit under this head, as well as certain other stamp duties enumerated in pages 30 and 31.

Taxes.†

Under this head is brought to account an Assessment Tax generally 5 per cent. on the annual value of all landed property within Towns, Forts, and Gravets. It is levied under the provisions of the Ordinances No. 5 of 1863 and No. 16 of 1865.—See page 31.

Postage.

Postage on letters, &c., regulated by the Ordinances Nos. 27 of 1865, 10 of 1869, and 13 of 1871.

Fines and Forfeitures.‡

This head includes the amount of fines levied and the proceeds of articles confiscated to the use of the Crown by orders of the Courts of Judicature, as also of sums realized by the seizure of Crops grown on Crown lands without permission, and confiscated Timber removed without license.

Sale of Government Property.

Under this head the following receipts are brought to account:—

1. The proceeds of all Salt sold in the manufacturing Districts in the Northern, Eastern, North-Western, and Southern Provinces, under the Ordinances No. 3 of 1836, No. 1 of 1838, No. 26 of 1852, and No. 2 of 1864. By Ordinance No. 14 of 1857, the importation of Salt into this Island is allowed on payment of a duty of Rs. 2·13 the cwt. The Ordinance No. 17 of 1840 makes further provision for the protection of this source of Revenue. By the Ordinance No. 5 of 1856, jurisdiction is given to Police Courts over offences punishable under the Ordinances above referred to, and the law relating to this branch of Revenue is also amended in certain respects.

The Salt Revenue is a Government monopoly; but in the Jaffna District of the Northern Province the monopoly is occasionally rented out annually; the Renter who purchases the monopoly of the retail sale being supplied by Government with Salt at 40 cents per cwt., which he is allowed to retail to the public at Rs. 2·24 per cwt. Salt is also sold for Export to released Districts and for Export beyond sea, at Rs. 5·25 per ton.

In all the other Salt manufacturing Districts, Salt is sold exclusively by Government to Retailers and Wholesale dealers at Rs. 2·36 per cwt.

2. Amount realized by the sale of Government Buildings.
3. By the sale of Colonial Stores, Provisions, and Building Materials.
4. By the sale to individuals of Weights and Measures supplied to the several Government Agents by the Colonial Store Department.—Recognized by the Ordinance No. 8 of 1876.
5. By the sale of Timber from the Government Forests.—Recognized by the Ordinances Nos. 24 of 1848 and 4 of 1864.
6. By the sale of unserviceable Timber and Stores, &c.
7. By the sale of the produce of the Botanic Garden, Pérádeniya.
8. By the sale of Delft Horses.

Reimbursement in aid of Expenses incurred by Government.

Under this head are brought to account receipts accruing from the sale of *Government Gazettes*, Colonial Office Lists, Ceylon Civil Lists, Maps, Ordinances, &c., and from Advertisements inserted in the *Gazette*. Also the Fees paid by the pupils of the various Government Schools, according to the rates established by the Department of Public Instruction; also value of Stationery and School Books sold there; sums realized by the sale of articles manufactured by Prisoners; recoveries of expenses incurred for the maintenance of Prisoners, in terms of the Ordinance No. 18 of 1844; stoppages made quarterly on account of the dieting, &c., of Patients in the Hospitals; fees for Survey of Crown Lands recovered from purchasers under the Minute of 14th May, 1875; collections of the General Cemeteries, &c.; and recoveries under the Irrigation Ordinance No. 21 of 1867.

---

* Under the provisions of the Ordinance No. 17 of 1865, section 60, the Stamp Duties on certificates, &c., of Proctors and Advocates have been transferred to the Municipalities.

† Under the provisions of the Ordinance No. 17 of 1865 the collections within Municipal towns have been transferred to the Municipalities.

‡ Under the provisions of the Ordinance No. 17 of 1865, some of the fines levied by orders of the Courts of Judicature within Towns have been transferred to the Municipalities.

In the North-Western and Central Provinces an allowance at the rate of 25 cents a day for each patient treated in the Government Civil Hospitals is recovered from the person who sends the patient to Hospital, in aid of the expenses incurred for his subsistence; and in the Western Province contributions by families to the subsistence of Lunatics are brought to account, under the provisions of the Ordinance No. 1 of 1873.

Government Vessels.

Under this head are brought to account sums recovered on account of Fares and Freights of Colonial Steamer "Serendib," as per Government Notices dated 21st November, 1871, and 2nd August, 1872.

Immigration.

Under this head are brought to account sums received for passage of the Immigrant Labourers between the Continent of India and this Island, at the rate of 25 cents a head for men and women, children being allowed a passage free.

Miscellaneous Receipts.

Under this head are brought to account over-payments recovered, and several other items which cannot conveniently be classified under other heads.

Interest

Is charged at 9 per cent. per annum for all debts due to the Government. Under this head is also brought to account a proportion of the Interest received from moneys lent by the Loan Board and Interest on Investments in India, as also the Interest allowed by the Banks on the minimun half-yearly balance to credit of Government.

Pearl Fishery

Can only be considered as a casual receipt—not as a permanent source of Revenue. The Regulations for the protection of the Pearl Banks are the Dutch Proclamations of the 28th May, 1665, and the 15th November, 1745, and the Regulation No. 3 of 1811. The Ordinance No. 18 of 1843, prohibits the possession within certain limits of certain nets, which might otherwise be used to the detriment of the Banks.

Special Receipts

Are the Fees established by the Governor's Minute of the 14th May, 1875, for the preparation of Title Deeds of Government Lands sold to individuals, and Fees payable upon the issue of Extracts from the Register of Births, Marriages, &c., and on granting copies of Notarial documents; also Fees for testing Weights and Measures, and Inspection fee, under the Inventors' Ordinance, 1859.

MINUTE

By His Excellency the Governor.

HIS EXCELLENCY THE GOVERNOR is pleased by virtue of the powers vested in him by clauses 5 and 20 of Ordinance No. 5 of 1861, to authorize the following scale of Fees and Allowances being paid to Receivers of Wrecks, for services rendered by them under the provisions of the above Ordinance.

	Rs.	Cts.
1st.—Fees to Nautical Assessors.		
For every day so employed - - - -	10	50
And such travelling expenses as may be incurred, in proceeding to and from the place at which the investigation takes place.		
2nd.—Fees and Remuneration to Receivers of Wrecks.		
(*a*) For every examination instituted by a Receiver with respect to any Ship or Boat which may be or may have been in distress, a fee not exceeding -	10	50
But in no case shall a larger fee than Rs. 20 be charged for examinations taken in respect to the same Ship, and same occurrence, whatever may be the number of deponents.		
(*b*) For every report required from the Receiver for the Agents or Secretary for Lloyds -	10	50
(*c*) Copies of depositions made before Receivers may be furnished by them to the parties applying for them at the following charges:—		
For each copy of deposition of 100 words or under - -	1	0
For every 100 words or part of 100 words over and above the first 100, an additional - - - -	0	25
(*d*) For Wreck or Vessels taken by the Receiver into his custody, a commission of 5 per cent. upon the value thereof; but the amount of such commission shall in no case exceed Rs. 500; and		
(*e*) If the services rendered by the Receiver or his Assistants be at a distance from their immediate Stations, travelling allowances in addition, according to the rates sanctioned by Minute of 21st June, 1858.		
(*f*) When services are rendered in respect of a Vessel or Boat in distress not being Wreck, or in respect of the cargo or articles belonging thereto, for every day the Receiver is employed in the service - - -	15	0
(*g*) Fees and Expenses exclusively incurred in instituting the examination required by clause 14 of the said Ordinance, and when no services are rendered beyond taking such depositions, shall not be considered as a charge on the Ship, but will be paid by Government.		

HIS EXCELLENCY is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers:—

1—*Receivers will bear in mind, that the principal object of the Ordinance No. 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.
2nd—The protection and preservation of wrecked property, and the restoration thereof to the owners.
3rd—The protection of the Customs Revenue.
4th—The settlement of Salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32, give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals; he must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention, whether the casualty happened from avoidable or unavoidable causes,—particularly as to the

(*a*) Unseaworthiness or insufficient equipment of the Ship.
(*b*) Insufficient or improper manning.
(*c*) Improper loading, overloading, bad stowage.
(*d*) Misconduct, incompetency, or neglect of Master, officers, or crew.
(*e*) Ignorance of lights, or navigation of the Coast.
(*f*) Neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck; to protect the Customs' Revenue; to provide for payment of fees, expenses, and salvage claims. But if the Master, or if the owner, or any duly appointed Agent of Owner or Master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services, and render such assistance as may be required.

Clauses 16 and 17 refer to Wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the Wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver, will be entered in the Report Book No. 1, per form annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a Warrant or other instrument of Court, the Receiver should not give up the claims to Fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the Warrant; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of Wreck of small value, either derelict, flotsam or jetsam, so constantly found on the Coasts of this Island; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour, in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertized in the *Gazette* and local papers; and notice of intended sale affixed at the Custom House of the Port. The account of Wreck sold is to be made in form No. 3 (annexed.)

6.—*Salvage, clauses* 21 to 26.

The decisions of questions as to Salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved; in releasing the property on proper security being given; in selling the property when necessary to satisfy the claim of Salvors; and in apportioning money paid in satisfaction of such claims; and the Receiver will recollect that, whilst providing for the claims of bonâ fide Salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of Salvage Service are,—

(*a*) The degree of danger from which the lives or property are rescued.
(*b*) The value of the property saved.
(*c*) The risk incurred by the Salvors.
(*d*) The value of any property by the use of which the services are rendered, and the danger it was exposed to.
(*e*) The skill shewn in rendering the service.
(*f*) The time and labour occupied.

The Salvage should be in proportion to the use of these essentials; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property; and as a general rule it may be borne in mind, that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage Salvors and finders of unclaimed Wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz.:*—

Upon the net value of property of Rs. 25 or under (Two-thirds)	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (One-half)	$\frac{1}{2}$
When of Rs. 50 and above (One-third)	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself, to the satisfaction of the Receiver, to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The Owner of the Ship being responsible for the cargo, and the Master of the Ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the Master, when present, as the agent of the owner, not only of the Ship, but also of the cargo; unless and until it is clearly proved, that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on 1st January of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks; and the net proceeds of all Wreck the property of Government as unclaimed, is to be paid into the General Treasury, quarterly; the Treasurer being required to receive such moneys on account of Wrecks.

By His Excellency's Command,

W. C. GIBSON,
Colonial Secretary.

Colonial Secretary's Office,

REMARKS.

No. 1. ARREARS OF REVENUE.—The increase is owing to greater vigilance exercised in the collection of Arrears due, more particularly in the Western Province.

" 2. CUSTOMS.—The increase is attributable to the larger importation of grain in 1877 than in former years, thus giving an increased revenue of Rs. 269,540 on that item alone. The importation of rice in 1877 amounted to 6,572,104 bushels, whilst that of the preceding year was only 5,744,531 bushels.

" 3. PORT AND HARBOUR DUES.—The expansion of trade accounts for the increased receipts under this head. The tonnage of vessels entered Inwards and Outwards in 1877, was much larger than that of the preceding year, viz.:—

	Tons.		Tons.
1876, Inwards,	1,171,205	1876, Outwards,	1,153,319
1877, do.	1,296,987	1877, do.	1,205,657

" 4. LAND SALES.—This should be considered an extraordinary revenue, and is of course dependent upon the extent of land sold during the year and the high prices realized. The Central Province has chiefly contributed to swell the revenue under this head by extensive sales of lands adapted for coffee cultivation.

" 5. LAND REVENUE.—The superior harvests in the Western and North-Western Provinces, added to the high price of imported grain caused by the famine in India, raised the revenue from paddy to a larger sum than that realized in the preceding year. The decrease in fine grain is caused by the discouragement given to chena cultivation.

" 6. RENTS, EXCLUSIVE OF LANDS.—The decrease on the item of bridges, canals, &c., is so small as to hardly require comment; the increase on the other item is due to the rent on certain buildings due for 1876 having been recovered in 1877.

" 7. LICENSES.—The increase is chiefly on arrack and toddy, but the amount is not so large as to call for any special remark. Had the state of the country been more favourable, principally in the Northern and North-Central Provinces, where much distress has been felt owing to drought and consequent loss of crop, the revenue of the year under this head would have compared even more favourably with that of any preceding year.

" 8. STAMPS.—The increase in receipts from general stamps is chiefly in the Western and Central Provinces, indicating the expansion of trade and growing prosperity of these Provinces. The reduction in receipts from postage stamps is partially made up by the increase in cash payments made on letters posted and brought to credit under the head "Postage;" but, on the whole, the reduction may be attributed to the Colony having joined the Postal Union, which reduced considerably the rates of postage for letters to England and other countries.

" 9. TAXES.—There was some difficulty experienced in the collection of the Assessment Tax for 1877; hence the decrease. The attention of the Government Agents has been called to this delay.

" 10. POSTAGE.—There has been a regular falling off in this item of receipts for some years back; the present increase may therefore be attributed to the difficulty of obtaining, in some remote districts, postage stamps, and also to the fact that the letters which reached the Colony in 1877 were insufficiently stamped—the difference having been recovered in cash.

" 11. FINES AND FORFEITURES.—The decrease under this head of receipt may be attributed to the suppression of chena cultivation, under which seizures of crops were frequently made, and also to the absence of the hitherto frequent confiscation of timber, owing to the appointment of Foresters.

" 12. GOVERNMENT VESSELS.—The decrease under this head is consequent on the Colonial Steamer "Serendib" having been under repairs in Bombay for several months.

" 13. SALE OF GOVERNMENT PROPERTY.—The receipts from salt compare favourably with those of the preceding year. The increase is entirely in the North-Western Province, a large number of vessels having called for salt in 1877. The increase from Colonial Store and from timber is caused by larger demands for stores, &c., required for works in progress in 1877. The other items are of a fluctuating nature.

" 14. REIMBURSEMENTS.—The rise in Survey fees is ascribed to the larger extent of land brought to the market for sale. The decrease in value of prison labour is only apparent, as the cost of convicts employed on Break-water works was placed to the credit of the cost of construction of the Mahara Quarry Prisons, instead of as formerly credited to the General Revenue. The other items do not call for any observations.

" 15. MISCELLANEOUS.—These receipts are of such a fluctuating nature that no special reason can be assigned for any increase or decrease.

" 16. INTEREST.—The increase under the head of interest on arrears of revenue is due to the failure of renters to pay up their instalments in due time. The increase of interest on local investments is due to a larger amount having been invested.

" 17. PEARL FISHERY.—This receipt is the result of the fishery at Aripu, which took place early in the year.

" 19. RAILWAY RECEIPTS.—The increase is principally caused by the heavy traffic on the Main and Nawalapitiya Lines, also by the opening of the first section of the Kalutara railway, which promises to be a remunerative undertaking.

48.—Pensions and Retired Allowances.—The decrease is owing to the death of several pensioners during the year. These pensions have consequently lapsed.

49.—Revenue Services.—The increase under this head of expenditure is chiefly due to the expenses incurred in connection with the Pearl Fishery at Aripu which realized 190,337 rupees.

50.—Administration of Justice.—The increase is in batta paid to jurors, and witnesses attending the Sessions of the Supreme Court.

51.—Ecclesiastical.—There is no variation in the expenditure under this head.

52.—Charitable Allowances.—The small increase under this head hardly calls for any remark.

53.—Education.—The progressive yearly increase under this head is consequent on the extension of the grant-in aid scheme and the opening of new schools.

54.—Hospitals.—The prevalence of cholera, chiefly in the Northern Province, is the cause of the increased expenditure under this head.

55.—Police and Gaols.—Although the number of prisoners in the jails in 1877 was somewhat less than in 1876, yet the enhanced price of provisions, chiefly rice, consequent upon the scarcity in India has contributed to raise the expenditure under this head over that of the preceding year.

56.—Rent.—The establishment of new schools, and the office accommodation given to district surveyors account for the increase of expenditure under this head.

57.—Transport.—The increase is chiefly in the Police and Public Instruction Departments and in the Departments of the Provincial Agencies.

58.—Conveyance of Mails.—This is due to the establishment of new Post Offices.

59.—Works and Buildings.—The construction of several new buildings in the course of the year, chiefly the new Jails at Kandy, Chilaw, Kegalla, and Anuradhapura, the new hospitals at Kalutara, the Powder Magazine in Kandy, and the additions and improvements made to the Welikada, Galle, and Kurunegala Jails and other public buildings account for this increased expenditure.

60.—Roads, Streets, and Bridges.—The following are some of the most important works which contributed to increase the expenditure for 1877, viz.:—

New road from Hambantota to Tanamalwila and Wellawaya.
New road to Rakwana.
New road from Bunyan bridge to Forres, Maskeliya.
Extension of Uda Pussellawa road.
New road from Nuwara Eliya to Maturata.
Improvement to the Central road to Jaffna.
Completion of the Kalutara bridge.
Bridging the Mullaittivu road and the road from Vavuniya-Vilankulam to Horawapotana.

61.—Miscellaneous.—The increase of expenditure under this head is chiefly attributable to the loss on Exchange on Bills drawn on the Colony by the Crown Agents. There has also been an increase of expenditure by the Surveyor-General, owing to the extension of his staff in connection with Chena Surveys, &c.

62.—Interest.—The interest which became due during the year on loans raised for the Breakwater Works contributed to swell the expenditure under this head.

63.—Colonial Stoke.—The increased demands for stores for public purposes, which were supplied by the Crown Agents, served to swell the expenditure under this head.

64.—Contribution towards Military Expenditure.—This is the usual annual contribution.

65.—Government Vessels.—The discharge of the Crew, while the Serendib was undergoing repairs in Bombay, and the saving in coal, pilotage, &c., while the vessel was lying in Dock, contributed to reduce the expenditure.

66.—Refund of Duties, Drawbacks, etc.—This is a fluctuating item of expenditure, and is dependent upon the claims for refunds as they arise.

67.—Lands taken for Government Purposes.—The value of land taken for the new hospital at Kalutara has chiefly been the cause of the increase of expenditure under this head.

68.—Immigration.—The influx of starving Immigrants from the famine districts of Southern India has largely contributed to raise the expenditure under this head.

69.—Railway Services.—The opening of the new line from Colombo to Panadure and the construction of additional accommodation, and other new works on the main line from Colombo to Kandy helped to increase the expenditure on this head.

70.—Railway Construction.—The expenditure includes the sum of Rs. 100,000, being the last instalment paid on account of the loan of Rs. 400,000 raised by Debentures in the Colony for the construction of the Nawalapitiya Branch Railway.

w	10	11	The duties of the Queen's Advocate are, in many respects, analogous to those of the Attorney-General in England, though in others there seems to be a close resemblance to the office of Lord Advocate in Scotland. The Queen's Advocate acts on all occasions as the Legal Adviser of the Government. The Legislative enactments of the Government are prepared by him; all Contracts and Deeds entered into, by, or made in favour of the Government, are submitted to him for his opinion, and executed under his directions. He also acts, after the manner of the Lord Advocate in Scotland, as Grand Juror and Public Prosecutor. He instructs Magistrates in Criminal proceedings, and all informations in the Supreme and District Courts are in his name, and prepared under his superintendence. He appears for the Crown in all Civil cases in which it is interested.
x	16	2	Acts as amanuensis in copying official correspondence and all other papers which pass through the office of the Queen's Advocate and compiles the Judicial Statistics.
y	28	0	The Interpreter translates documents written in the Malabar and Sinhalese languages, and enables the Queen's Advocate to communicate personally with the natives in those languages.

FIXED DEPOSITS.

Interest is allowed on Fixed Deposits as under:

Repayable at	twelve months'	notice,	5	per cent. per annum.
Do.	six	do.	4	do.
Do.	three	do.	2	do.
Do	one	do.	1	do.

N.B.—Money lodged in Fixed Deposit cannot be withdrawn until the period for which it is lodged or notice of withdrawal has expired, and at the expiration of that period the interest will cease.—These rules will be strictly adhered to.

DEPOSITS.

1.—Deposit accounts are not opened for a less sum than Rs. 500.
2.—Cheques will be refused payment when not drawn on forms supplied by the Corporation.
3.—No cheques to be drawn for sums under Rs. 20.
4.—Cheques in which alterations have been made will not be paid.
5.—The Corporation will not hold themselves responsible for the payment of cheques which may have been advised as lost or mislaid. They will do all in their power to protect their constituents, but do not guarantee the non-payment of such cheques.
6.—Packets containing money for credit of accounts, sent to the Bank by Peons, should be addressed to the Cashier and not to the Manager or Accountant.
7.—Depositors are requested not to make any entries in their pass books, which should be frequently sent in to be written up.
8.—The Corporation do not recognise Trusts, and accounts are only opened in the individual names of one or more persons.
9.—Cheques on the Chartered Mercantile Bank and the Bank of Madras or on any Sub-Branches intended for the credit of constituents in the Oriental Bank Corporation should be paid in before 2·30 P.M. (and before 1 P.M. on Saturdays) or they will not be placed to the credit of Current Accounts till the day following.
10.—Payments intended for credit of accounts at the Local Agencies of the Corporation should be made before 2 P.M. or they will not be advised till the day following.
11.—No Interest allowed on current accounts except under special arrangement.
12.—No account allowed to be overdrawn.

ADVANCES.

The Corporation make advances on

1.—Cash Credit Bonds for the cultivation of Estates, on terms to be ascertained at their Offices.
2—Promissory Notes bearing two approved names, and representing *bonâ fide* transactions, and not having more than four months to run.

N.B.—Bills presented for discount should be lodged with the Manager before 12 o'clock. If sent in later they will be retained for consideration until next day.

3.—Deposit of Government Securities or Bullion.
4.—Goods not of a perishable nature, lodged in an approved Warehouse and protected by Fire Insurance, or on goods shipped for importation into Ceylon.

AGENCY.

The Corporation will act as Agents for the purchase and sale of investments in the Loans of the Indian Government, and other Public Securities in India and elsewhere; and will collect and remit half-pay for constituents free of charge.

EXCHANGE.

The Corporation grant Drafts, negotiate and collect Bills payable at Bombay, Calcutta, Foochow, Hiogo (Kobe), Hongkong, Madras, Mauritius, Melbourne, Port Elizabeth, Shanghai, Singapore, Sydney, Tellicherry, and Yokohama, on terms which may be ascertained at the Corporation's Offices.

Circular Notes and Letters of Credit for the use of travellers may be had at the Colombo Office.

N.B.—All applications for drafts must be sent in on the day before the Mail is made up.

In all cases of applications for Drafts the Christian names of the person to whom the money is to be sent (if a married lady, her own Christian name, not that of her husband) should be given.

COMMISSION.

On collection of Local Bills	½ per cent.
On Remittances to Galle Agency	par.
Do. to Kandy Agency	¼ per cent.
Do. to Jaffna Agency	1 per cent.
Do. to Nuwara Eliya Agency	1¼ per cent.

Native Land Measure.

Lahas.			
8 =	1 Kuruni.		
80 =	10 =	1 Péla.	
320 =	40 =	4 =	1 Amunam.

Among the Natives the extent of Land is defined by the quantity of seed required to sow it, computed at the Amunam Measure and its sub-divisions. In fertile Lands, the seed is not strewed so thickly as in poor soil; an Amunam of good ground therefore will sometimes measure twice as many square feet as an Amunam of poor soil.

AGRICULTURE.

*** The Agricultural Returns for 1877 have on examination been found so defective that they failed to convey any correct impression of the state of Agricultural progress in the country generally.

Steps have been taken to ensure greater accuracy in future returns; meanwhile, it has been decided not to delay the publication of this volume until all the returns were amended, but to omit the untrustworthy statistics.

Land is everywhere in urgent request, but, owing to the want of surveys, the demand is out of all proportion to the supply. The consideration of a very large number of claims is for the same reason postponed indefinitely, the consequence being that encroachments on Crown land, though not so frequent as in former years, are still very common, and are every year becoming harder to deal with.

RETURN OF JAILS AND PRISONERS.

REPLIES TO THE QUESTIONS, COMPILED FROM THE RETURNS OF THE RESPECTIVE FISCALS.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

The male jails at Welikada and Breakwater are now entirely on the separate system; that is, each male convict is locked up at night by himself in a separate cell, but works in association by day, unless he is placed in a refractory cell at Welikada, when he is entirely in separation by day as well as by night.

Juvenile offenders are, in Colombo, kept at Welikada entirely apart from adults by day and by night.

At Slave Island all the wards but two have been converted into 176 cells. One of these wards is a temporary building, and the other is used for men under observation pending removal to hospital.

At the Kandy old jail, Hulfsdorp, Mahara, Galle, and Jaffna jails, there are from 43 to 52 cells in each, which are used for locking up the longer-sentenced or indifferently-conducted prisoners, the rest being kept in association wards.

At the other jails of the Island there are fewer cells, as specified in answer to Query III.

In all jails, males are invariably separated from females by day as well as by night.

At Welikada known prostitutes are kept in a separate yard by day, and at night locked up in separate cells. Other female convicts are in association.

Unconvicted prisoners are kept apart from convicted prisoners, as follows:—Hulfsdorp and Kandy (old jail) are almost exclusively devoted to the safe custody of unconvicted prisoners, only a few convicts (generally in the 3rd stage) being kept at these prisons to attend to the jail services.

At Galle they have a separate yard and are absolutely prevented from mixing indiscriminately. In the other jails the unconvicted are locked up at night separately, as a rule, and every endeavour is made in the absence of a separate yard to keep them apart by day. This is the more easily done as the majority of convicted prisoners in such jails are at work outside for many hours daily.

At Welikada, Slave Island, Breakwater, and Mahara no unconvicted prisoners are ever lodged.

Rules for further classification cannot at present be insisted on, but the more serious class of offenders and juveniles (of whom the number is always small) are locked up separately so far as the accommodation and number in prison will admit.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by jail guards and officers, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

QUESTION V.

How are the prisoners classified?

The Classification in the Ceylon Jails is as follows:—

(1) Males, convicted, who are sub-divided as follows:
- (*a*) Penal stage or rigorous hard labour.
- (*b*) Second stage or industrial hard labour.
- (*c*) Third stage or industrial light labour.
- (*d*) Road Ordinance defaulters.
- (*e*) Simple imprisonment only.

(2) Females, convicted, in same classes as males.

(3) Males, unconvicted, committed, &c.:—
- (*a*) As debtors, Crown.
- (*b*) As debtors, private.
- (*c*) For default of bail, witnesses, &c.
- (*d*) For further examination by Justice of the Peace.
- (*e*) For trial before Supreme Court.
- (*f*) To await sentence and pending appeal.
- (*g*) As accused persons arrested on Warrants in transit to other stations.
- (*h*) As suspected Lunatics for medical observation.

(4) Females, unconvicted.

These are the recognised divisions for classification, but (except separating males from females) it is not possible in the present stage of the Island jails to invariably keep these classes distinct from one another, except as stated in reply to Query 1.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

Shot-drill is in force in all the jails for convicted prisoners, except Road Ordinance defaulters and females.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

For all classes of convicted prisoners in the penal stage and who are not exempted therefrom by the Medical Officer on account of bodily infirmity, the hours for shot-drill are those laid down in rule 180—viz., from 6 to 8 A.M., and from 3 to 5 P.M.

The Fiscals all report this rule is carried out in its integrity.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

Within the walls of the jail:—

(*a*) All jail services, including in most jails, cooking for the convicts.
(*b*) Coir beating, stone breaking, and coir twisting.
(*c*) At Welikada, all the clothing for the prisons of the Island is made up.
(*d*) In Negombo a little has been done in weaving a coarse description of towelling.
(*e*) At Kandy the construction of the new Bogambra jail buildings has been entrusted entirely to convict artificers, most of whom have been trained on the works.
(*f*) At Jaffna, Negombo, and Matara, extensive improvements in the interior buildings have been carried out by convict labour; and at other jails to a smaller extent.

Convicts are also employed beyond the walls, as stated in reply to next query.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1.) On what kind of work they are so employed?

The prisoners at the *Slave Island* and *Breakwater* prisons are employed on the Breakwater-works, and have done a large amount of work, the beton blocks being entirely made, and the materials to a great extent prepared, by convicts.

At *Mahara*, the large stones for the Breakwater works were reduced and loaded into trains by convicts.

At *Kandy*, the convicts quarried and collected the stone used in building the new jail, cut away the hill at the back, and filled in adjacent low grounds. They also cleared out a large quantity of silt from the upper and lower lakes, and prepared the sites for the new police barracks.

At *Galle*, the Fort ditch was partially filled in.

At *Mátara*, a large piece of a low land, which was reported to be detrimental to public health, was raised.

At *Kurunégala*, the new public esplanade was laid out.

At *Negombo*, the sanitary condition of the town was improved by filling swamps, &c.

At *Jaffna*, in building the police barracks, quarrying stone, burning lime, &c.

At *Mannár*, the construction of the causeway was continued.

At *Hambantota*, as usual in former years, a large quantity of salt was collected at the lewayas, and the salt stores and buildings kept in repair.

Besides these special works, the prisoners are employed at outstations, breaking road metal, scavenging, cleaning public latrines, keeping the minor roads in order, planting Government lands with ornamental trees, &c.

(2.) How are they supervised?

Every jail has a jailor, who visits the out-door working parties, if near the jail.

At the Slave Island, Breakwater, Welikada, and Mahara prisons there is a considerable staff of overseers and guards.

At Kandy, Galle, Jaffna, Kurunégala, Negombo, and Hambantota, there are smaller subordinate establishments.

At other jails there are only guards or peons, varying according to the number of prisoners, but, as a rule, there is one officer to every ten convicts at work.

(3.) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

(4.) How are the profits of their labour accounted for?

The value of the labour rendered to the Breakwater works and at Mahara quarry is reported to the Auditor-General monthly, and debited to the work.

An account of the labour contributed to each work is kept, from which the reply to query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in jails are sold, when the actual money realized is paid into the nearest Kachcheri and brought to account as revenue.

QUESTION XII.

What are the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted; and how often are they patrolled during the night?

The hours of sleep as laid down in the Jail Manual, Rule 180, are from 6 P.M. to 5 A.M. The rule is reported to have been followed, and all the dormitories lighted and patrolled during the night.

QUESTION XIII.

What were the number and nature of the punishments inflicted for offences committed by prisoners undergoing imprisonment?

Jails.	Reduction to Penal Stage.	Forfeiture of Marks.	Lashes with Cat, not exceeding twelve.	Strokes with Rattan.	Punishment Diet, One to Seven days.	Disrated from Constable's Office.	In body belt.	Solitary confinement, One to Seven days.	Otherwise.	Imprisonment by Court.	Total.

QUESTION XIV.

Is there, or are there, any Chaplain or Chaplains of any, and what, religious persuasions?

There is no regularly appointed Chaplain for any jail, but any accredited ministers are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

Religious services are held at Welikada, Slave Island, Breakwater, the Borella Hospital, and Hulfsdorp by Protestant and Roman Catholic Ministers every Sunday, and at other places they are held whenever any Minister, whatever may be his persuasion, signifies a wish to do so.

QUESTION XVI.

Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprized when prisoners of their respective persuasions enter the prison?

Yes; they are allowed free access, but they are not apprized when any such prisoners enter the prison.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada all long-sentenced prisoners are taught by paid teachers for two hours a day on week days, and four hours on Sundays.

At Slave Island and Breakwater, teachers appointed by Government hold school from 12 to 4 o'clock every Sunday.

No provision is made for education at the other jails.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

Good conduct, by which is meant industrial good conduct in matters of discipline and moral behaviour. Remissions of terms of imprisonment are granted in proportion to the number of good conduct marks earned by the prisoners. Ordinarily the maximum number of marks a prisoner can earn in a week is nine, and the highest remission a prisoner can obtain by uniform good conduct is two-ninths of the whole term of imprisonment to which he was sentenced, exclusive of the period of six months passed in the penal or lower stage. When suitable work is available, all well-conducted long-sentenced prisoners who have been over two years in jail are eligible to earn one mark additional on becoming efficient artizans; but the number of these is limited.

Prisoners sentenced to six months' imprisonment and under are not eligible for any remission of sentence.

QUESTION XIX.

Have Coroner's inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Notice of every death with a medical certificate is always sent to the Coroner, who either authorizes the burial or, if he sees reason, holds an inquest.

QUESTION XX.

(1) What was the sanitary state of the prisons during the year 1877?

The sanitary condition of the Breakwater and Slave Island jails was very satisfactory during the past year.

At Welikada, there was an excess of deaths over the previous year, partly due to an out-break of cholera in May. Pneumonia also prevailed. The Medical Officer is of opinion this is caused by prisoners being let out of their cells at night to visit the latrine.

At Kandy the health of the convicts was better than it has been for the past two years.

At all the other jails of the Island the sanitary condition was satisfactory except at Jaffna, Matara, and Kurunegala, where the health of the general public has been unsatisfactory. The inmates of these prisons are mostly local convictions for short periods.

(2) What where the prevailing diseases?

Chiefly fever and diarrhœa, but pneumonia and dysentery also prevailed, and at Welikada there was an epidemic of mumps. There were also some cases of cholera.

QUESTION XXI.

What are, shortly, the rules as to Diet?

The following is the new dietary scale now in force in all jails :—

Articles.	European and Burghers. Full. ozs.	Ordinary. ozs.	Penal. ozs.	Natives. Full. ozs.	Ordinary. ozs.	Penal. ozs.	Punishment Diet. European and Burghers. ozs.	Natives. ozs.
Bread	16	12	24	4	4	4	28	0
Rice	16	10	8	20	20	22	0	22
Meat or Fish	8	8	0	5	2½	0	0	0
Vegetables	8	8	4	4	4	4	0	0
Plantain	4	4	0	2	0	0	0	0
Dholl	0	0	0	2	2	0	0	0
Sugar or Jaggery ..	1	1	0	1	1	0	0	0
Coffee	½	½	0	½	½	0	0	0
Ghee	½	½	0	½	½	0	0	0
Onions	½	½	0	½	½	0	0	0
Salt and Pepper	¾	¾	¾	¾	¾	¾	0	¾
Curry stuffs	a sufficient quantity							

The quantities specified are a day's consumption and are served out at three meals: one at 5·30 A.M. consisting of bread, coffee, &c.; one at 11 A.M. consisting of one-half of the remaining articles; and another at 5·30 P.M. of the rest.

Full Diet is given to all hard labour convicted male prisoners engaged in the Breakwater works, and on the Mahara quarry. At other jails only to those who have served one full year.

Penal Diet is given to convicted prisoners with sentences of one month and under, during the whole of their term; to other convicted prisoners, on two days in each week during the first three months of their sentence.

Ordinary Diet is given to all unconvicted prisoners and to all convicted not entitled to full or liable to penal diet.

Punishment Diet is only given when specially ordered as a penalty for breach of jail regulations.

What is the source of the water supply; the quality of the water; and the amount of water available for each patient every day?—Water is supplied from five wells situated on the Asylum grounds. These are provided with pumps and leaden pipes to carry the water to the several wards. The water obtained from this source is soft, and pure, and abundant for the greater part of the year, and is used freely by the patients. The water for drinking purposes is filtered through silicated carbon filters and through the ordinary earthen chatties used in this country.

What is the number of (I.) Lavatories?—Ten.
(II.) Baths?—Nine.
(III.) Latrines?—Nine.

What is the system of sewerage?—The sewage is carried off in drains, partly tubular and partly open, which are flushed daily by the water from the bath-rooms, and by pure water from a reservoir built for the purpose, and which is filled as required from time to time. The sewage, after passing into a cess-pool, is carried from it to the back of the Asylum grounds. The dry-earth system is still in operation in the latrines, and no inconvenience has yet arisen from this method of sewage disposal. The scavenging arrangements continue the same as in former years.

Question II.—(Management.)

RESTRAINT.

Restraint.	Seclusion under Lock and Key.	Restraint by Attendants.	Mechanical Restraint.
The number of times resorted to —	480	None.	None.
The number of persons subjected to —	39	None.	None.
The greatest duration of, in any single instance — —	1 month	None.	None.

In reference to the above Table, state:—

I. By whose authority patients are restrained?—The Medical Officer in charge.

II. What kinds of mechanical restraint are in use?—None.

III. Whether any, and if any, how many cases of cruelty by attendants to patients have been brought to the notice of the proper authority, and what was the result in each.—None.

IV. What was the number of cases of injury to patients,

(I.) By themselves?—One; committed suicide by hanging.

(II.) By other patients?—None.

(III.) By attendants?—None.

		ACRES.	R.	P.	
(I.)	The airing courts . . .	0	3	27	Belonging to the Asylum.
(II.)	And other grounds	35	3	33	

Are the patients, as a rule, given daily exercise, their health permitting?—Yes.

Are they confined to airing courts, or allowed to walk in other grounds, and sent beyond the Asylum?—Allowed to walk about the grounds of the Asylum, and twelve of them are taken out for a drive every evening for a couple of hours.

Are any means taken to amuse the patients, or to induce them to amuse themselves? Detail them.—The patients amuse themselves frequently with music and dancing, musical instruments being provided for them. Cricket and other games form their amusement on the playground every evening, and they find agreeable means of diversion in their wards during the day by card-playing, draughts, native games with counters and cowries, and bagatelle.

How many religious services were held in 1877?—There were fifty-two services held by a Colonial Chaplain in English, Sinhalese and Portuguese, and the Buddhist services were held as in former years.

What was the average attendance?—The average attendance of the former services was twenty, and that of the latter thirty.

In what building, and how many could it contain?—Workshop; about one hundred.

(I.) What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?
(II.) Detail the arrangements as to Baths and Lavatories.
(III.) What is the system of Sewerage; and what the condition of the Privies?

ANSWERS TO QUESTION II.

Western Province.

Merchant Seamen's, Colombo.—For bathing and drinking the quantity is unlimited. For drinking purposes the water is obtained from a well in Skinner's Road, South, which also supplies a good portion of the town. It is pure in quality, free from saline and other admixture, and is always filtered before being used. There is a well in the Hospital premises, the water of which is derived by percolation from the sea. It is saline and brackish, and unfit for drinking. This well supplies the baths, which consist of a large square room, with three wooden tubs filled by means of a pump attached to the well. There are side-drains on the ground floor of the hospital, which convey away the washings of the wards, kitchen and court-yard. No sewage matter is permitted to enter these drains. They are flushed by periodical showers of rain, and every day by means of the pump attached to the hospital well. There are two latrines, in which the dry-earth system is carried on, the contents being removed every night by cart. MacDougal's disinfecting powder is used to deodorize the excreta from dysenteric patients before removal from the wards. The floors of the latrines are daily washed with a solution of crude carbolic acid and water.

General Hospital, Muradána.—Unlimited. Four wells. The water is conducted through iron pipes, leading from these wells to two filters, Danchell's and Captain Crease's, erected at a convenient distance from the wards. Clear and soft. Cemented baths built in each lavatory, to which water is conducted through iron pipes leading from the wells. There are also appliances for warm baths. Dry-earth system. Close stool buckets are placed for helpless patients, chiefly in the diarrhœa wards. Portable urinals for night use are constructed on the outer verandahs of each ward. The filth from dry-earth latrines is carted away every night by a contractor and buried at a great distance from the hospital.

Leper Hospital, Hendala.—Any quantity. A well and a river. The water in the well is good. Drinking water is always filtered. But the water in the river, during certain seasons, especially when the sea rises with the tide, mixes with sea water, and turns brackish or saline. The able among the patients bathe in the river; while to the weak and sickly, water is brought from the river and generally warmed; and these bathe in tubs. Sewerage is conducted by means of drains. The privies are worked on the dry-earth system and are kept clean and inodorous, the filth being removed regularly every morning and buried at a distance.

Pánadure.—Ad libitum. A well in the premises. Good. For drinking purposes it is filtered through charcoal and sand placed in alternate layers in an earthen chatty; the filtering media being frequently changed. There are two lavatories for males and females. Two cemented tubs are in each lavatory for bathing purposes, water being conveyed to them by means of an iron pipe, leading from a cistern close to the well. Dry-earth system. There are two latrines situated at convenient distances from the wards, and in each are placed three zinc buckets with dry-earth in them; the buckets are cleansed twice daily, and their contents buried far away from the hospital.

Kégalla.—Unlimited. Two wells in the grounds adjoining the hospital. Good, especially as it is filtered before use. The patients bathe in the stream close to the hospital. Tubs placed in a covered shed next to the kitchen, are available for warm baths. The sewage of the hospital is buried on hilly ground about a quarter of a mile to leeward of the building. There are no privies. There are two latrines for the male and female patients, respectively, conducted on the dry-earth system.

Ratnapurá.—Unlimited. The river Kalugangа. Good and fit for drinking and for all other purposes. There is a bath-room divided into two compartments for males and females. The river runs past the hospital and those convalescents who desire to do so, bathe in it. When a warm bath is considered necessary, a tub is brought to the bedside of the patient and every precaution is taken to prevent any cold draughts playing on him immediately after it. Surface system of drainage obtains here. There are no privies. The latrines are conducted on the dry-earth system. Two are of brick—one for males and the other for females, and they are situated near to their respective wards. There is a third which is a temporary structure and is used by the patients of the temporary ward. All the latrines are daily attended to and kept in a satisfactory condition. They are all provided with a sufficient quantity of dry-earth and disinfecting powder.

Negombo.—Ad libitum. The wells within the hospital premises supply water for washing and bathing. For drinking and culinary purposes water is supplied from wells outside. The water in wells within the hospital premises is brackish. The drinking water is good in quality. It is carefully filtered before use. There are two lavatories, one for males and the other for females. Surface drains carry off rain water, &c. The latrines are on the dry-earth system. There are two for males and one for females. The contents are removed daily.

North-Western Province.

Kurunégala.—Ad libitum. The wells (three) in the hospital grounds. Clear, tasteless, odorless, soft, free from organic impurities and fit for drinking and cooking purposes. The water is always subjected to filtration in the usual charcoal and sand filters. There are two lavatories, one for the male patients which consists of six separate cemented baths, and another for female patients which consists of two tubs, filled by pump, from an adjoining well. The convalescents bathe in the stream that flows past the north of the hospital grounds. The dry-earth system. The sewage is buried in a plot of low-lying ground, subject to submersion, to the west of the hospital grounds. There are two latrines, one for males with four seats, and another for females with one seat only.

Puttalam.—Ample for all drinking purposes, but not for bathing. From the Government well at Chenakuduruppu. Mere drainings of the soil, pleasant but sedimentary. The chatty filters, ordered by the Principal Civil Medical Officer and Inspector General of Hospitals, work satisfactorily. Two new bath rooms were erected at the end of the year, one for males and one for females, each supplied with a furnace for heating water. The dry-earth system prevails in the hospital. There are no privies but latrines, one for males and one for females.

Chilaw.—About one gallon of filtered water is available for drinking purposes, and twenty-five gallons for bathing. Wells. Fresh and good. The water for drinking is filtered. Tubs are placed in an enclosed shed; these tubs are filled with water taken from the hospital wells by the attendants. Rubbish, &c., is daily collected and burnt. The dry-earth system is adopted in the latrines, and the contents of the buckets removed to a distance and buried daily.

Southern Province.

Galle.—Unlimited. A well. Indifferent. The water is filtered by means of three chatties, which are supported on a stand and provided with perforated covers; each chatty has alternate layers of charcoal and gravel, and the perforations are filtered with a bit of sponge, allowing the water to filter down to the last chatty, from which the patients are supplied with an unlimited quantity of water. Each ward is provided with a filter stand. There are

five bath-rooms for males and three for females in each of which there is a bath, in good order and condition. The system of sewerage quite perfect. The barrel drains are complete, and are supplied with openings at certain intervals to admit of the drains being flushed and mopped out every morning. Latrines are constructed on the dry-earth system, and are found to answer well. They are well kept, and the contents of the buckets are treated with McDougall's disinfecting powder, and removed for burial.

Mâtara.—The supply is unlimited. A well sunk on the premises with a force pump attached. The quality is good. Before being distributed to the sick for drinking it is filtered by means of chatty filters filled with sand pebbles and charcoal, one for each ward. There is a bath room attached to each latrine, (male and female), in which there is a well sunk, but they are not used. The patients bathe, in a portion of the river adjoining the hospital, which is enclosed for the purpose. Open surface drains leading into the river. The latrines are conducted on the dry-earth system, which is enforced by constant supervision, and answers admirably.

Hambantotta.—For drinking and culinary purposes about ten gallons a day. A well at the foot of a sandhill. Fresh, clear, soft, and free from saline impurities. The water is filtered before it is used. A bath-room was constructed during the year. Patients who can walk resort to a tank at a short distance from the hospital. Surface drains. The latrines are on the dry-earth system, and the boxes are removed and the contents buried twice daily.

Tangalla.—About two gallons. Water is procured from a well situated about 250 yards from the hospital. The quality of the water is not good. It is therefore always boiled and filtered before use. Patients bathe in a bath-room in the hospital premises. The water is taken from a well close to the hospital. The latrine is conducted on the dry-earth system. The filth is thrown into the sea.

EASTERN PROVINCE.

Trincomalee.—The quantity is unlimited. From a masonry-built spring well. Light, clear, and made use of after being filtered. A bath-room is attached to the latrines. A tub is placed which is filled every morning. Open drains. Dry-earth system carefully carried out.

Batticaloa.—Unlimited. A deep spring well in the hospital compound from which the water is raised and carried by hand labour for culinary and other purposes. The quality of the water is apparently transparent, fresh and pure; and agreeably to the instructions of Dr. Kynsey, is also filtered for drinking and hospital use. There are two different buildings to answer the purposes of baths and lavatories for the separate use of men and women without any communication with each other. They are respectively provided with number of wooden tubs, filled with water for bathing or washing. There is no regular system of sewerage; but the hospital being built on a comparatively elevated position, and having every facility for surface drains, on all sides to carry off the periodical monsoon rains, and keep the ground sufficiently dry and clean, even in wet weather, the necessity for a system of under ground drains is obviated. There are no privies; but the adoption of dry-earth system with latrines which have long superseded the former, keeps the latter in a satisfactory condition, without offensive effluvia.

NORTHERN PROVINCE.

Mullaittivu.—As much as required in the hospital premises. A well in the hospital premises. Brackish, being percolation from the neighbouring tanks, &c., but properly filtered for drinking purposes. There is no bath-room, but tubs are placed under a temporary shed and filled with water from the well for the use of the patients. There is no system of sewerage, but there are two temporary privies, one for males and the other for females; each of them has several partitions and a hole in each partition, emptying into one large hole into the earth.

Vavuniyá-Vilankulam.—Not limited. Wells. Good, but thick and contains lime. Always used after filtration. No special baths or lavatories. Tubs are placed for the patients to bathe. Surface drains. Latrines are on the dry-earth system and are kept clean.

CENTRAL PROVINCE.

Kandy.—The quantity is unlimited. Water is obtained from a large well on the premises worked by a force pump, also from the Lunumadalawa stream, carried down by a surface drain or canal. Clean and soft, fit for all purposes, water for drinking being always filtered through charcoal and sand. There are two separate bath-rooms for the use of the European patients, and one for the male native patients. The bath-room, for females consists of three compartments having a tub in each. The water is raised by a force pump into a capacious cistern whence it is carried by leaden tubes to the lavatories of the female and European wards. Dry-earth system. The excreta are daily carted away by a mercantile firm, who use it as manure, for coffee. The premises are always kept clean and free from smell.

Gampola.—The quantity of water is unlimited. A large and deep well with a pump attached to it. Clear, colourless, inodorous, soft, and free from organic impurities. For drinking purposes the water is filtered. Leading out of the wards under covered ways, there are bath-rooms furnished with tubs which are supplied with water by an arrangement of pipes communicating with a cistern which is fed by a pump from the hospital well. Masonry drains —some open and others covered—carry off rain and refuse water. The latrines are in use and they are conducted on the dry-earth system. They are always kept clean, dry and free from smell. Each of the latrines has a place set apart for preparing and storing dry-earth.

Badulla.—*Ad libitum.* Badulla-oya. Hard. Not very good. Has to pass through charcoal and pebbles in two filtering tanks, then boiled and again filtered through sand and charcoal in earthen chatties having perforations. Two bath-rooms with tubs, one for males and the other for females. The dry-earth system is effectually carried out. There are two latrines, one for males with six seats and the other for females with four seats.

Mâtalé.—Ample for all purposes. A spring a short distance from the hospital supplies the drinking water. That contained in the hospital well is used for washing purposes. During the dry season, however, water for all purposes has to be brought from the spring. That from the spring is sufficiently pure for drinking purposes, but is subject to filtration before the patients use it. There are three bath-rooms with tubs in them for the use of the male patients, and two similar ones for the use of the females. Sewage matters are buried in the jungle some distance from the hospital. The dry-earth system is in use in this hospital, and has been found to answer well. The latrines are in good order.

Nuwara Eliya.—The quantity of water is unlimited. A large stream that comes down the hill side at the back of the hospital. Good and wholesome. The water is filtered through sand and charcoal before it is used for drinking. There are two bathrooms, one for males and the other for females. Water is carried to them from the stream. Wooden tubs are placed in the rooms. The latrines are on the dry-earth system. They are daily cleaned out and the excreta buried at a distance from the hospital.

(*c.*) Reports by a Government Inspector, independent of the governing authority of the hospital. (Append copies of his reports, if any.)

ANSWERS TO QUESTION III.

WESTERN PROVINCE.

Merchant Seamen's, Colombo.—All hospital books were invariably produced for inspection. They were always found made up to date. A return of receipts and disbursements is furnished to the Principal Civil Medical Officer's office at the end of every quarter. Whether this is seen by the Governor or not I do not know. I am not aware of any.

General Hospital, Maradána.—All books were produced for inspection at the half-yearly inspections by the Principal Civil Medical Officer and Inspector-General of Hospitals. All the books produced for inspection were found to be properly made up to date of examination. Annual, half-yearly, and monthly reports, as well as expenditure returns, are forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals.

Leper Hospital, Hendála.—They were produced. None.

Pánadure.—They were produced on seven occasions. All found regularly entered up to date. Weekly, monthly, half-yearly, and annual returns were regularly forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals.

Kégalla.—The books of the hospital were produced on the visits of the Principal Civil Medical Officer and the Colonial Surgeon. No. Weekly, monthly, half-yearly and yearly reports and returns are forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals.

Ratnapura.—They were produced on the occasion of the visits of the Principal Civil Medical Officer and the Colonial Surgeon. They were found to be properly made up to date of examination.

Negombo.—Produced on every occasion. They were always found to be properly made up to date of examination. Weekly, monthly, half-yearly and annual returns and reports are forwarded as they fall due to the Principal Civil Medical Officer and Inspector-General of Hospitals through the Colonial Surgeon.

NORTH-WESTERN PROVINCE.

Kurunégala.—Produced on four occasions. They were all found properly made up to date of examination.

Puttalam.—The whole of the hospital books were produced and examined on the visits of the Principal Civil Medical Officer and Inspector-General of Hospitals (Dr. Kynsey) They were on each occasion made up to date, and were examined and initialed by the Principal Civil Medical Officer and Inspector-General of Hospitals. The number of diets and daily average of patients are monthly supplied to the local Assistant Government Agent, who can thus compare them with the bill of the hospital contractor. The diet tables are always at the call of the authorities, and the extra diet table is forwarded monthly to the Principal Civil Medical Officer and Inspector-General of Hospitals.

Chilaw.—Produced on every occasion. Found made up to date of examination. Weekly, monthly and annual reports and returns are forwarded to the Principal Civil Medical Officer as they become due.

SOUTHERN PROVINCE.

Galle.—The register books were produced on the occasion of the visit of Dr. Kynsey, the Principal Civil Medical Officer and Inspector-General of Hospitals. They were made up to date of examination. The reports and returns forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals as they fall due, are weekly, monthly, half-yearly and annual returns.

Mátara.—The books were shewn on three occasions, in February and December to the Principal Civil Medical Officer and Inspector-General of Hospitals; in September to the Colonial Surgeon, Galle. The books were found made up to date. None.

Hambantota.—Produced on the visits of the Principal Civil Medical Officer and the Colonial Surgeon. Found to be properly made up to date. Periodical returns and reports are forwarded as they fall due by the medical officer in charge to the Colonial Surgeon of the Province, and by him to the Principal Civil Medical Officer.

Tangalla.—The register books were produced on every occasion. They were always found to be properly made up to date of examination.

EASTERN PROVINCE.

Trincomalee.—Produced on the occasion of the visits of the Inspector-General of Hospitals. No. Periodical returns and reports are forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals.

Batticaloa.—The register books were produced for inspection on every occasion. They were always found properly made up to date of examination. Weekly, monthly, and yearly returns of sick, of vaccination, small-pox, and cholera, and half-yearly returns of medicines, equipment, and hospital expenditure, are periodically sent to the Principal Civil Medical Officer and Inspector-General of Hospitals.

NORTHERN PROVINCE.

Mullaitivu.—The books were only produced to the Colonial Surgeon of the Province on his visit on the 27th September, 1877. All the records were examined on the 27th September, 1877, by the Colonial Surgeon, and each of them was found to have been filed up to date, and an entry was made by him to that effect in the letter book.

Vavuniyá-Vilankulam.—Produced. Found made up to date. Weekly, monthly, half-yearly and annual returns are regularly forwarded to the Colonial Surgeon, and by him to the Inspector-General of Hospitals. I am not aware whether these have come under the notice of the Governor.

CENTRAL PROVINCE.

Kandy.—The books of the hospital were examined by the Principal Civil Medical Officer and Inspector-General of Hospitals. On every occasion they were found properly made up to date.

Gampola.—The register books were produced on every occasion. They were properly made up to date of examination. Annual and half-yearly returns and reports as well as monthly and weekly returns are forwarded to the Principal Civil Medical Officer and Inspector-General of Hospitals through the Colonial Surgeon of the Province.

Badulla.—Yes. They were found properly made up to date.

Mátalé.—The hospital records, &c., were always produced when desired, and were found made up to date.

Nuwara Eliya.—They were produced on two occasions before the Principal Civil Medical Officer and Inspector-General of Hospitals, and on one before the Colonial Surgeon. Up to date. None.
